Ex No: 3

Study of different types of network Cables and Crimping of cable with RJ45 connector.

Aim:

To study the different types of network cables and crimp an ethernet cable using an RJ45 connector

Types of network cables:

1) Twisted pair cables
   - → UTP (unshielded twisted pair)
   - → STP (Shielded twisted pair)
2) Coaxial Cable 3) Optical fiber Cable

RJ45 Colour Code – T568B (Datalb Order)

Pin	Colour	Pin	Colour
1	White-orange	5	White-Blue
2	orange	6	Green
3	White-green	7	White Brown
4	Blue	8	Brown

Order:

White-orange → Orange → White-green → Blue → Greeen → White → Brown → Brown

Input:

1) Cat 5e / Cat 6 Ethernet cable
2) RJ45 Connector
3) Crimping table
4) Cable tester

Colour sequence Input:

WO – O – WG – B – WB – G – WBr – Br

Output:

The network cable was successfully crimped with an RJ45 connector using the TIA 568B Colour standard, and the cable connection was verified using a cable tester
